

A04-5

# Condensed assemblies of $\pi$ -conjugated nanocarbons in coordination nanospaces

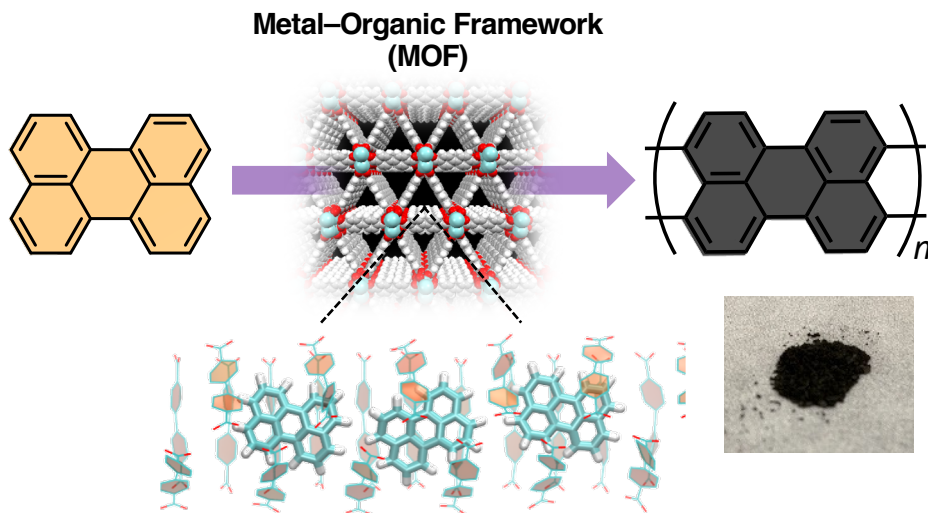

Principal investigator: Takashi Kitao (Univ. of Tokyo)

## Our Mission: Beyond condensed conjugation

### Aims of A04-5

- Precise synthesis of  $\pi$ -conjugated nanocarbons using MOFs
- Physicochemical properties of condensed assemblies of nanocarbons in MOFs

### Precise synthesis of graphene nanoribbons

### Assemblies of graphene nanoribbons in MOFs
